

Aobo Mac OS X Keylogger PRO Guide

◆ Installation ◆

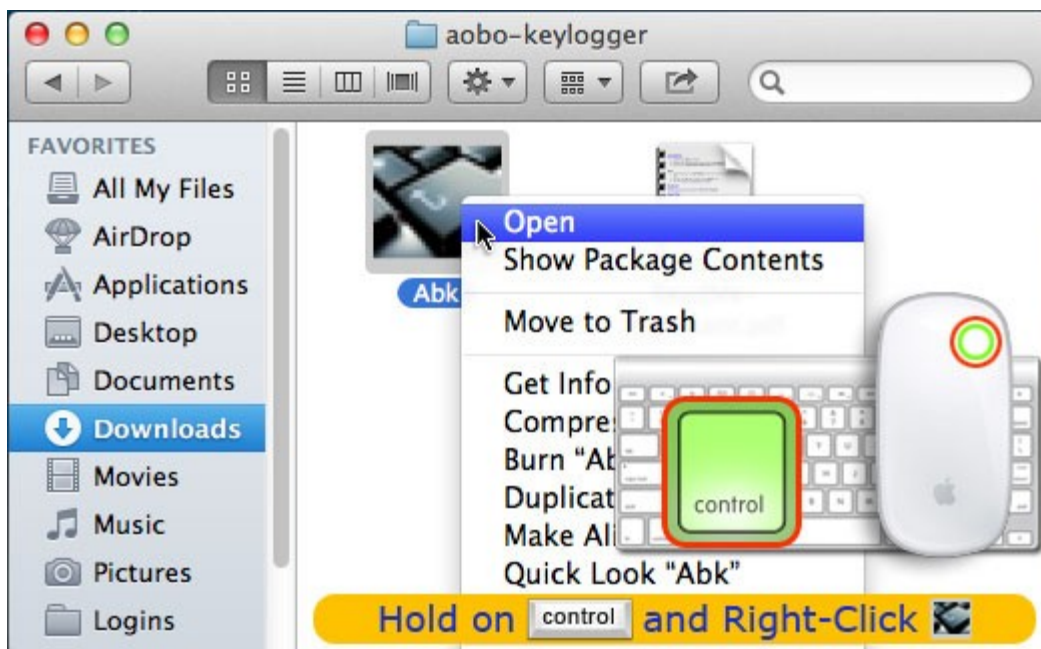

1. Double click "**AbkPro**" to install it.
2. Press the hotkey "**Ctrl+Alt+A**" to install the Monitoring driver.
3. Bring up Aobo window with hotkey "**Ctrl+Alt+A**" and configure it.
4. Click the link "**Click to enter license key**" at the bottom left to register it.

Video Guide: www.keylogger-mac.com/video/guide-aobo-pro.htm

◆ Trouble Shooting: Can't be opened in OS X 10.8 Mountain Lion ◆

- In this case, please RIGHT CLICK "**AbkPro**" and select "**Open**" to install. Please click on "**Open**" when it asks if you are sure to open the file.
- After install, please use the shortcut key "**Ctrl+Alt+A**" to bring up the software interface.
- If you cannot use right click, please hold "**Control**" key on keyboard and click the "**AbkPro**". (see image below).

Note:

- In French, please use "**Ctrl+Alt+Q**" as the hot key if the above key doesn't work.
- For Mac, the "**Alt**" key is same as the "**Option**" Key.
- Click for [Configuration Example](#).
- Please [Remove the Trace of Aobo](#) after installation.

— ♦ **Removal** ♦ —

Please [Download the Uninstaller](#) to remove the keylogger.

— ♦ **Email Tab** ♦ —

Check "**Send the Logs by Email**".

Send to:	Your Email address	
SMTP Server and PORT:	smtp.gmail.com	587
Username:	Your Gmail address	
Password:	Your Gmail password	
Use secured (SSL) connection:	Yes	

Click on "**Send Test**" to test Email functionality.

Click for [More Examples of Email Setting](#).

— ♦ **FTP Tab** ♦ —

FTP is **optional**; you may leave it blank if you don't know what it is.

Host name and port:	Host name or IP	21 or customized port
User name	Your FTP user name	
Password::	Your FTP password	
Remote Dir:	/Private	

Note:

- Please wait for at least 10 seconds when test the FTP.
- If you get message "**Test successful**", then the FTP setting is correct.
- "**Remote Dir**" refers to the folder you'd like to place Keylogger logs. Don't forget to put "/" before the folder name.

◆ **Warnings** ◆

Please don't set the interval too short. We recommend you to set the time interval as below:

Screenshot Recording:	5 minutes
Screenshot Compression:	High
Email Interval:	30 minutes
